ABOUT US

Our Story

I was raised in a family that cherished preparing fresh, wholesome meals using simple, natural ingredients. My family would make flavorful dishes every summer from vegetables and herbs freshly harvested from our backyard garden - these recipes eventually became the early beginnings of the "Deymeh" product line you enjoy today.

In 2006, I decided to honor my family's legacy by launching my own small business selling artisanal versions of our recipes, sourcing ingredients directly from farms in the fertile Bekaa Valley region. It has been incredibly rewarding to watch my homegrown company, started with just my passion and perseverance, grow over the years into a nationally-distributed brand thanks to the loyalty of many supportive believers. I'm sincerely grateful for everyone who believed in my mission and helped bring high quality, small-batch foods from my heritage to tables across the country.

Al khairat For Food Production

Al-Khairat Food Production is located in Lebanon's scenic Bekaa Valley, specializing in crafting pickled vegetables and other preserved foods. As a leading producer of pickled products, our team of dedicated farmers, packagers and employees supplies large volumes all year round to meet wholesale and retail demand, without compromising our commitment to consistency and quality control.

What sets Al-Khairat apart includes:

Our capacity to provide reliable quantities daily to large-scale food industry buyers throughout the year

Our flexibility in accommodating custom orders for distributors' private labels

Our Mission & Vision

At Deymeh (Al-Khairat Food Production), our vision is to solidify our status as the most trusted and dependable provider of artisanal Middle Eastern pickled products and other traditional foods for distributors, retailers and consumers across Lebanon and worldwide.

We plan to further grow our footprint far beyond the lush Bekaa Valley fields where we sustainably source our cucumbers, cauliflower, olives and aromatic herbs. From the fertile soil of our ancestral land to tables spanning Europe, the Gulf states and the United States, we aim for the Deymeh brand to become synonymous with premium quality, consistency and authenticity.

Our dedicated team strives tirelessly, using generations-old methods perfected by our ancestors, to craft pickled delights honoring the cultural heritage of Lebanon. We bridge past and future traditions by pairing time-honored techniques with advanced production facilities and practices to meet large-scale demand.

As we expand into new markets abroad, our mission focuses on diversifying our line of products to introduce more people worldwide to the vibrant tastes of pickled turnips, chili peppers, eggplants and mixed vegetable blends unique to our region.

We will continue elevating food safety standards and sustainable operational approaches so that Deymeh becomes the number one pickled food supplier across the globe.

Staying true to our rich history by selecting only the finest ingredients at their seasonal prime, we create each small batch with exceptional care and personal attention unmatched by mass manufacturing. Through commitment to our core values rooted in past generations while embracing innovative visions for the future, we can bring people together to celebrate a common love of wholesome, traditional foods.
